

PAPER PRESENTATION

GROUP [A]

TOPICS

1. Swarm Intelligence and traffic Safety.
2. Humanoid Robotics.
3. Audio, Image and video processing.
4. Digital light processing
5. Security in Embedded systems
6. 3rd Generation solid state drives.
7. Microwave superconductivity.
8. Virtual Instrumentation.
9. Neural networks.
10. Advanced Sensors and Instrumentation.
11. Recent trends in HVDC power transformer and FACTS controller
12. Smart Grid
13. Genetic Algorithm in power systems.
14. EMC and EMI issues in power electronics
15. Soft computing techniques in power systems

Abstracts from other relevant topics are also invited.
